I am writing to express my views on the Microsoft trial. Microsoft in my opinion is a HUGE monopoly that the government seems scared of trying to stop. Forcing Microsoft to donate computers to poor schools will do nothing except increase the strangelhold Microsoft has on the industry. If Microsoft was forced to play fair and open up their code, we would have seen great strides in technology long ago, not just the things that Microsoft wants us to see.

I hope and pray you will not allow Microsoft to continue to hold technology back simply for their financial gains.

Thank You
